INDEX FOR 1961
Vol. 33, Nos. 1-12

Heating Piping & Air Conditioning

. . . for Consulting Engineers
Mechanical (HPAC) Contractors
Engineers with Plants & Buildings

"Most Informative, Most Authoritative, Most Quoted"

HEATING, PIPING & AIR CONDITIONING regularly runs more pages of editorial material on the subjects of heating, piping, and air conditioning in industrial, commercial, institutional, and public buildings than any other publication. During 1961, for example, there were 1200 such editorial pages — in addition to many, many editorial pages of news, equipment developments, a complete Directory Section, etc. . . . . By actual count, articles in HPAC are "most quoted" in the leading text-books and hand-books in the field. . . . HPAC's articles are written by authorities actively engaged in the field served.

[Heating, Piping & Air Conditioning is indexed regularly by Engineering Index, Inc., and Industrial Arts Index, and is micro-filmed by University Microfilms.]
